Failing in his secretly planned efforts for admission, he pleasantly spent the time in graphically narrating again to an intensely interested young lady his wonderful experiences on his recent trip to Mammoth Cave and the blood-curdling escapes he had in the famous Corkscrew.

LEXINGTON, Aug. 4.—The Elks' Fair, which opens Tuesday and continues five days, promises to be a great success. Large crowds are expected, and already some have begun to arrive. The following is a partial list of the events on the

First Day-Five show rings for mules, eight rings for cattle, with several rings for stallions, harness and saddle horses. In addition there will be several exciting trotting races.

Second Day-Cattle, saddle and harness horse, roadster and other show rings. There will be two trotting races and one running race.

Third Day-Besides numerous show rings the programme for this day will embrace the most spirited trotting and running races of the week. This is calculated to prove the banner day, when 30,000 people are expected to be present. The programme offered is a fine one.

Fourth Day-The programme for this day is also an excellent one, including good show rings and trotting and running races.

The fifth day's programme will be as varied and interesting as its predecessors. Besides the show and speed rings there will be a floral hall display, as well as all kinds of fowls. Among the other features will be M'lle Christine, the famous North Carolina twin, the Midway, the world-famed driving horses Powderface and Cupid, the five Guilden Wonders, famous driving and bucking elks and other amusements.

ELEGANT THEATER.

The New Buckingham Will Be a Veritable Amusement Palace.

The Whallen Brothers announce the Sunday matinee, August 20, as the opening date of their new Buckingham Theater. This play-house, which has been man, the handsome and accomplished under course of construction for the past six months, will throw open its doors on this date, and Louisville theater-goers will be able to boast of a veritable amusement palace, unequaled by any vaudeville house in America, and approached by very few others in point of construction, elegance, comfort and safety. After the loss of their pretty theater by fire, February 2, these energetic business men did not sit down to "cry over spilt milk" but with their well-known enterprise at once started in to raise the Buckingham. Phoenix-like, from the flames, prettier, bigger, finer than ever, and how well they have succeeded can be told by a single glance at the interior of their new

theater. Great credit is due Mr. D. X. Murphy, construction; Ed. Van Meter, the foreman of the big force of workmen, and as artistic a set of house scenery as any theater in the country can boast of. The interior will be sumptuously furnished, elegantly upholstered and draped, and in fact, nothing will be overlooked that will tend to add to the comfort and enjoyment of the Buckingham patrons. This ouilding is as absolutely fire-proof as modern builders' art can make it, and there are ten separate exits, which can empty a packed house in less than three

tained by Divisions 1 and 4.

Next week will be a lively and interesting one in Hibernian circles, as the three divisions which meet will endeavor to surpass each other in entertaining the members and visitors.

The fun will begin Tuesday evening at the meeting of Division 1. The surprise that was announced for the last meeting was postponed until Tuesday, when members of Division 4 will visit in a body. The full new County Board are also expected to be present, as well as members rom all other divisions.

President Keenan and Messrs. Tynan, Mulloy and Ryan have assured our reporter that they will be amply prepared to entertain all who attend. Through the County Board an invitation is extended to all Hibernians to be present.

Wednesday evening Division 4 will present its hustling President, John Hennessy, with a handsome gold emblem of the order, when it is expected all those who possibly can do so will be present. This division has also issued invitations to all Hibernians to partake of their hospitality. The Literary Committee say they will surpass the entertainment furnished by Division 1, and the Limerick

boys have a reputation for entertaining. Thursday evening Division 2 will introduce its new degree under the supervision of John Barrett, President Will Meehan, Thomas Camfield and Owen Keiran. From what our reporter learned this will be an event worth more than the price of the initiation fee. This is rather an early start in the entertainment and amusement line, but the Hibernians propose to have an early start and make this a red letter year in the history of the order.

One of the principal features of the convention will be the celebration of the fiftieth anniversary of the arrival in the United States of the great Irish apostle of total abstinence, Father Mathew. Father the Lords. Mathew reached New York City fifty years ago, and was met down the bay by a committee of the most prominent citizens. He was formally received by Mayor Woodhull and the Common Council. For two weeks he held levees in the City Hall and was the guest of honor at numerous public and private functions.

After leaving New York Father Mathew visited the principal cities in the United States, in each of which he was entertained in the most lavish manner by citizens of all shades of religious opinion. In Washington he was admitted to a seat in both houses of Congress, an honor never accorded up to that time to any foreigner save Gen. Lafayette, and was the guest at a banquet tendered to him and fifty others by the President of the United States. He remained in this country for two years and a half and, although he had come here broken in health and for the purpose of recreation and rest, during that period he traveled over 37,000 miles while visiting twentyfive States and pledged more than 500,-

Bill Sought to Annex Townships for Government and Taxation Purposes.

A cable dispatch to the New York World of Sunday says the city of Dublin is frantic with indignition over the emasculation by the House of Lords committee of a bill promoted by the Dublin corporation in Parliament to enable it to extend its boundaries by taking in a number of townships which have grown up around its borders.

These townships, which are practically part of Dublin, are mainly residential, and in all except one the Tories have control of the governing bodies. They gain all the advantages of proximity to the city, of which 90 per cent, of their residents use the roads and enjoy the New Departure Contemplated public facilities; but because the Dublin corporation has a Nationalist majority the townships fiercely resist any inclusion within the city boundaries.

The bill passed through the House of Commons, where it was bitterly fought for twenty days, though the corporation, to disarm the townships, conceded them preferential tax rating and offered them a far larger representation in the proposed new governing body of greater Dublin than they were proportionately entitled to. In the House of Lords the bill was referred to a committee, presided over by the Duke of Northumberland, with four proposed to include in Dublin had to be own land in the other townships in ques-

eration the Duke of Northumber land, without giving any reason, announced that the committee could only pass the bill on condition that the townships be excluded. The other powers sought in the bill are unimportant. So the decision is equivalent to a rejection of the bill, after the corporation had spent

\$200,000 promoting it. Private bills are supposed to be dealt with by the committees purely on their merits, and the vast majority of them are; but in this case the Unionist Peers had a chance of obliging their Irish colleagues while dealing a blow at an Irish Nationalist corporation, and they could not resist the temptation.

The bill comes back to the House of Commons on Tuesday for an agreement with the Lords' amendments, and the Nationalist party are endeavoring to get it restored to its former shape; but if they succeed it will certainly be thrown out by

Bitter resentment is felt throughout Ireland at this scandalous abuse of its powers by the House of Lords, and the only hope of the Dublin corporation now is in the support of the Gladstonian party in the House of Commons, though a short time ago the corporation refused to give a site for a Gladstone memorial.

The meeting of the County Board of Ancient Order of Hibernians Wednesday evening was an enthusiastic and harnonious one. After receiving the quarterly reports, which showed the order to e in a flourishing condition and the transaction of routine business, the board adjourned sine die.

County President John A. Murphy then called for the names of those who were to constitute the board for the ensuing year, nearly all of whom were present. The first order of business was the election of officers, which resulted in the unanimous choice of Thomas Keenan for Vice-President, Owen Keiran for Treasurer, and Tom Kelly for Secretary.

After the installation of the new officers President Murphy delivered his annual address, in which he made several valuable suggestions, and urged this board to try and surpass the good work done by its predecessors. The officers were instructed to commu

Nationalists Favor Completing Wole Tone's Before Undertaking Another.

Proposition That Gavan Duffy Arbitraté Irish Disputes Fell Through.

William O'Brien's Organization Will Control Munster and Leinster.

UNITED IRISH LEAGUE PROSPERS

Every new Nationalist movement in Ireland now appears to produce a fresh schism, and the proposal to erect a monument to Parnell is no exception to the rule, says the Dublin correspondent of the World. A meeting with that object was held under the Presidency of the Lord Mayor of Dublin this week, and letters approving the project were read from Dillon and Justin McCarthy, while John Redmond attended and spoke in its favor. But the extreme section, who are supposed in sympathy with Redmond, developed strong hostility on the ground that until the movement for raising a monument to Wolfe Tone of 1798 fame is successfully carried through, Parnell

should get no memorial. Redmond argued that there was nothing inimical in the two projects, but he could not allay the opposition, and the motion in favor of a Parnell monument was only carried after a hot debate and a division which showed its opponents to be a very considerable minority.

So dissension spreads and flourishes among the Irish Nationalists. This week a proposal has been made that Sir Charles Gavan Duffy, the octogenarian patriot, should be given a free hand to arbitrate between the different Irish Parliamentary factions, and invitations were sent by friends of his to Dillon, Redmond and Tim Healy, asking them to meet and confer about the scheme. Dillon replied that since his retirement from the Chair he could not represent any one but him. self, and expressed the belief that the Irish people were bringing about unity in their own way. This is understood to be an allusion to the spread of William O'Brien's United Irish League, which is establishing branches now in Munster and Leinster, and it is said it practically has the whole of Connaught under its

Redmond wrote offering to meet the representatives of the other factions and consider Duffy's offer. Healey, it is ur erstood, made a similar offer, but there will be no conference, and if there was it would be useless, as a union to be enduring must now come from the people and not the leaders.

STILL AT OUTS.

Irish Leadership Question Remains Unsetted-Redmond Coming.

The London correspondent of the New York Journal says he is assured there is no truth in the statement that the negotiations now proceeding are about to end successfully for the selection of a new Irish leader and a general political reconciliation of the various Irish factions.

John Dillon's policy is to leave the leadership question open until the next general election. He will then try to smash every Healyite and Redmonite candidate. Blake and Davitt both approve of this course. In the meantime all the faction leaders are busily engaged in libelling one another. Even the attempt to start a national fund for the purpose of raising a monument to Parnell

in Dublin set them all by the ears. Redmond, fearing the Government will suddenly dissolve Parliament, proposes to make another tour of the United States to realize funds for the party war chest. He is hopeful that in view of the approaching Presidential nominations, the American politicians will feel constrained to give money to the national cause.

"LAUGH AND GROW FAT."

This is an old but very trite expression, and the truth of it is illustrated all around us every day. And it is not only the "growing fat," as it is called, but the effect on the physical health of the individual even more than the effect on the state of society in general that should induce every one to encourage the practice. It is true, some great men of other days, thinking it added to their dignity, refused to laugh or even to allow semblance of a smile to cross their faces. But such people throw a gloom over the community. There is nothing so infectious as a good, hearty laugh, and on hearing it one can hardly help joining, even though not knowing the cause that produced the merriment. In the early part of the century a celebrated French professor gave lessons in the art of laughing, not so much in the interest of the health of his patient as to lead one to produce a euphonistic rippling sound as for the benefit of his purse. The man whose laugh bubbles up spontaneously is never a pessimist, but can always see the bright side of life, and counts his friends by the number of his acquaintances. It is told of Napoleon that he once gained a battle by giving an order which caused a ringing laugh among the troops. Then advancing rapidly on the enemy, who heard the merriment and not understanding, easily put them to rout. Some doctors claim laughter is a cure for that most insidious and fallacious disease, dreaded by all, consumption. But a hearty laugh is so much dif-

No people have adapted themselves to the new order of things and set about more zealously to take advantage of opportunities for betterment than the Irish since the local county governments were inaugurated. Those who predicted or expected the county governments elected by the people and free to conduct affairs as they deemed best to result in dissension, contention, factions, conflicts, failure and the ultimate necessity of the military intervening to save the warring Irish from the wrath of each other, have been disappointed. The Irish people seem to have realized the importance of success in the limited opportunity given them for self-government, and to refute the claim of justification for British misgovernment-that the Irish are incapable of governing themselves. Indeed, the sudden change of heart by England in conceding local home rule to Ireland seemed intended to fail disastrously, stifle the demad for home rule, and justify before the world England's past government of Ireland. If so, the scheme has failed, to the dismay of the schemers and to the credit and try; but we fear the proposed tunprestige of the Irish people.

The County Boards are urging upon Parliament to pass at this session the agricultural and in dustries bill for Ireland, even though it is not all it should be, wisely deciding to accept it as it is for the present, relying for such amendments as may be required in future, and are backing up their request for the bill with statistics of Ireland's resources, products, industries and trade, showing wherein it will be benefited and increased by favorable legislation, and concluding with an appeal for such a bill as a legal and just right.

be prorogued this fall or winter, the Irish show their energy as well as wisdom by trying to have those matters disposed of by the present Parliament, and remove the Irish question as an issue in the Parliamentary elections.

The London Times takes the project to make a tunnel under the sea between the coasts of Antrim and Wigtownshire perfectly seriously, and very gravely discusses the advantages of the idea. The chief point that appeals to it is that it would bring Ireland "into closer contact with the rest of the United Kingdom," a consummation which is not wished for very devoutly by the Irish people. Apart, however, from this view, the scheme is altogether a ridiculous one, and how sensible men could sit down solemnly to discuss it at all puzzles our comprehension. Time would be much better employed in discussing some means of improving railway accomodation and methods of transit of the place. Many attractions will be generally in Ireland, to say nothing prepared, among others a cake-walk by of reducing excessive charges. CATHEDRAL OUTING.

The Cathedral outing will be given this year at Osborne's Woods, Clifton, on August 23. The grounds are shady and beautiful and within easy access from any part of the city. The Walnut street cars transfer to the Crescent Hill cars, which pass the grounds, and the Market street cars approach within a few blocks professionals. The Cathedral outings have gained a reputation not only for the fine dinners served, but also for the good times afforded the guests, and it is safe to predict that the usual large crowd will be in attendance. A balloon ascension into closer contact with the counwill take place in the afternoon.

Democratic Primary to Nominate Candidate for Jailer August 11.

PERSONAL AND SOCIETY NEWS NOTES | Than to be the one that nailed him there

[Special Correspondence of the Kentucky Irish American.]

Than to be a lawful robber, holdin' help FRANKFORT, Kv., August 4.-The an-

nouncement that ex-Gov. John Young Brown would again enter the political arena was received in the Capital City with mingled feelings of surprise and regret. Staunch and tried friends, who for political honors at the hands of the Democratic party of Kentucky, could not realize that now, in the autumn of a wellspent life, after devoting the prime years of a noble manhood to fathering the fundamental principles of Democracy and I'd ruther have all rank disease combined its cause, he would desert that party which had showered repeated honors Than to be a man afficted with the mora upon him, even to elevating him to the Governor's chair of the Grand Old Commonwealth of Kentucky. And all for what? The empty honor of a nomination for Governor upon a "bolters' ticket." Gov. Brown made an excellent executive, and it is to be regretted that he should have taken the step which he took last

and far between-in fact it is almost impossible to find a man who has recently voted the Democratic ticket who states that he will not support the ticket. It is stated by conservative politicians that Franklin county will give the Democratic ticket 900 to 1,000 majority.

There is strong talk of moving the Democratic Campaign Committee's headquarters to Lexington, as that city is more centrally located and has better railway connections with cities all over the State. Col. Percival Haley, the efficient Secretary of the State Central and Campaign Committees, is confident of victory for the entire ticket.

Next Friday the Democratic primary for Jailer of Franklin county will come off, At the present writing Col. Joseph Holton, who is making the race in the interest of Mrs. James Alley, widow of the late Jailer, looks a winner, with Col. W. E. Lawrence a close second.

A movement is now on foot to start a new weekly paper in this city. It will be Democratic in politics and will support The wise in peace, in war the fierce! William Goebel and the entire Democratic ticket. The first issue will appear about August 15 or 20.

The wild reports sent out by reporters for Lexington and Cincinnati papers regarding the small-pox in Frankfort have injured business greatly in the Capital City. There is not a single case of smallpox in the city, and no new cases are being reported. The forty or fifty patients at the camp, five miles from town, are all doing well and will be discharged in a ing the Capital City should not let the

ATHLETIC EVENT.

There will be quite an interesting athletic event at the Dominican church picnic next Monday at Fern Grove, in the shape of a 100-yards dash between Cosmas Meagher and Dave Burke for the championship of Limerick. The friends of both men have been debating for some time as to which was the fleetest of foot, hence a match was arranged to be decided at the church picnic. There is some lively betting on the result, the girls even backing their favorites.

HIBERNIANS.

What They Have Been Doing the Past Week-General News Notes.

Hibernian Hall will be crowded next Tuesday evening.

Though a small State, Connecticut lays claim to sixty-five divisions.

Since January 1 there have been three divisions organized in Connecticut. P. W. Mulqueeny has been installed as

President of Division 4 of New Orleans. Every member of the Young Men's Division should attend the next meeting. George Butler makes the right kind of talk. He knows how to stir things up. many a wide district of the continent of Division 3 always does the handsome

present Tuesday, Wednesday and Thursday evenings. There will be a continuous change of programme. The annual picnic of the Ancient Order of Hibernians of Baltimore was held at Darley Park. Nine divisions were repre-

sented by about 5,000 people. Division 1 and the Daughters of Erin of Spokane, Wash., held a joint installation of their newly elected officers. Both are in a flourishing condition.

The New York State convention of the order will take place at Syracuse next May, when Onondaga county will be represented by fifteen divisions.

The State officers, eight County Presidents and Colonel of the Hibernian Rifles will represent Connecticut at the national convention in Boston next spring. The County Board should make it

point to visit the different divisions in a body more frequently than heretofore. The results would prove surprising. Division 65 was instituted last month

in Unity Hall, Ashmont, by County President William Cronin and staff. Suffolk county, Mass., thus has more division than have many States. At the recent quarterly convention in

Connecticut of the State and county officers it was voted to bond the State Secretary and Treasurer and all county officers in some surety company. Messrs, Edward O'Brien, Will Mc-

Carthy, John Curran and James Donahue

were among those whose services con-

tributed greatly to the pleasure and success of the outing of the members of St. Patrick's congregation at Fern Grove. Division 1 of Syracuse installed its officers Tuesday evening, after which a literary and social session was held. Members of other divisions were present,

and the meeting was addressed by Mayor

McGuire, Judge Kennelly, John Cummins and others prominent in the order. The national officers will meet the first week in September, probably either in Philadelphia or Washington. At this meeting a vacancy in the directory will is expected that John W. O'Hara, of In-

John Kennedy, of Syracuse, visited all the divisions of that city and assisted in the installation of the officers during the past month. Mayor McGuire is as popu lar with the general public as with the

former executive of the Salt City. At a recent meeting of Division 2 of Baltimore it was decided to present to St. Peter's church a memorial window, which will cost \$350. It will be called the "Hibernian Memorial Window." When notified of the generous act the pastor, Rev. Father Reardon, suitably thanked the members. Father Thomas Cummings, of Roscommon, who was present, was presented \$50 for his new

church in Ireland. In the school-house hall at South Natick, Mass., Division 33 and Ladies' Auxiliary No. 12 held a public installation of their newly elected officers. Sarah Sweeney, on behalf of the Ladies' Auxiliary, presented Mrs. Griffith, the retiring President, with a gold watch chain and pair of gold cuff-buttons.

Members of Division 1 and Company B. Hibernian Guard of Worcester, Mass., visited George Wrightson and wife at their new home recently. Brother Wrightson has been a member of Division 1 fourteen years, and organized Company B, Hibernian Guard, in 1886. He furnished the funds to procure unimight enter the competitive drill of the Hibernian companies of Rocky Point in 1890, when it won the championship.

After the installation of the newly elected officers of Division 34, Boston congratulations were extended and remarks on the good and welfare of the order were made by prominent officers and members of various divisions. Among the speakers were County President Cronin, Presidents Frank Daly, John J. Daly, C. J. Keyes, Peter E. Murphy and Dr. Donahue. Refreshments were then served, and a vocal entertainment was rendered by John J. Smith, James O'Brien, Brother Spellecy and others,

The membership turned up in large numbers, and there was also considerable over the average of visiting brothers, at the last meeting of Division 5 of Providence, R. I. President P. J. Finneran officiated in routine business for the last time, and then turned the meeting over trip rates, as follows: Rushville, \$1; knightstown, \$1.00; Anderson, \$1.25; knightstown, \$1.00; Anderson, \$1.00; Anderson, \$1.25; knightstown, \$1.00; Anderson, to County President Dillon. IRISH SCHOLARS ABROAD.

An interesting meeting was held at the Society of Arts Rooms, London, when the Rev. Edmund Hogan, S. J., delivered a lecture, under the auspices of the Irish Literary Society, on "Irish Scholars Abroad.'

Rev. Dr. William Barry, D. D., presided, and he introduced the reverend lecturer as one who had made an especial study of his subject.

Father Hogan, in the course of his lecture, said that from the time of St. Patrick to the time of Henry II. Ireland had been the nursery of zealous missionaries, who had spread the faith through Europe, where the names of Irish saints and martyrs are still held in reverence. To those missionaries also was due the conversion of Scotland and of a large portion of Saxon Britain. Ireland, said the lecturer, drew attention to herself by what her children did in large numbers, not at home, but abroad. This foreign work was an achievement of the noblest kind, the records of which have been preserved to us by continental writers of early times, showing how generations of scholars and generations of apostles rose up in Ireland and went forth in the world to impart a knowledge of the better life to come.

It was thus till the end of the sixteenth century, at the end of which Irishmen had reached a high level of culture. Among those who were celebrated at the time were eighty-five men, who were mostly clergymen of the orders of Franciscans, Dominicans and Augustinians. He placed before the meeting the names of men who were not in the national category of biography, but whom he presented as scholars abroad, as distinguished in their paths as were Dr. Conan Doyle's "Wild Geese." The reverend lecturer then went on to describe particularly the work on the European continent of missionaries and scholars of

He said that in our day it seems to be the ambition of Balfour to promote the education of Irish Catholics by indirect endowment as in the sixteenth and seventeenth centuries his ancestors, the Cecils, promoted the education of Catholics by direct endowment. He then dealt at length with the theological writings and philosophical, critical and scientific efforts of men of Irish blood who had labored through the long years when it was dangerous for any Irishman to acknowledge himself as such.

BIRTHDAY PARTY. A delightful lawn fete was given at the home of Mr. John Lintner, No. 1416 West Madison street, on Tuesday evening, in honor of the sixteenth birthday of his daughter, Miss Susie. The lawn and house were crowded by friends of the young lady, and after a bounteous repast dancing and amusements were indulged

Some years ago the chapel, which Father Boyle was instrumental in building in the southeastern part of the city, bought of the Presbyterian church nearby a large bell, which had been discarded on account of a flaw in its construction that created a painfully harsh and discordant sound. The bell was sent to a foundry, where several inches of the lower rim was cut off. It was then returned and put in place in the chapel. The tones were now exceedingly soft and sweet and the bell a source of much pride to the congregation and pleasure to the neighborhood. One day the pastor of the Presbyterian church, meeting Father
